

Rosemont Copper Mine – Project Summary and Remaining EPA Concerns

EPA Region 9 Briefing Materials for CEQ and EPA HQ Site Visit

January 29, 2014

Background

Rosemont Mine is a proposed new open-pit copper and molybdenum mine on 4,750 acres of predominantly Coronado National Forest lands southeast of Tucson. The mineral deposit could reportedly produce up to 10% of the U.S. production of copper and create several hundred near-term jobs, but would also result in the
